

NOAA Restoration Center Community-Based Restoration Program

In 1996, the NOAA Restoration Center (NOAA RC) began its Community-Based Restoration Program, which provides funding, through a competitive process, for local efforts to restore coastal habitat. The purpose of the program is to promote coastal stewardship and a conservation ethic among coastal communities while fostering the development of restoration partnerships and expertise among NMFS personnel. Since its inception, the Community-Based Restoration Program has partnered on 179 projects, many of which are ongoing today. Partnerships include:

ASA-FishAmerica - NOAA RC and the American Sportfishing Association FishAmerica Foundation

Five Star - NOAA RC and the Five Star Restoration Challenge Grant Program

NFI - NOAA RC and the National Fisheries Institute

RAE - NOAA RC and Restore America's Estuaries

NFWF - NOAA RC and the National Fish and Wildlife Foundation
